Successful Meeting Here.

Visiting Minister Says Pleasant Things About Hendersonville People.

This is from a recent issue of the Biblical Recorder published in Raleigh:

"Rev. R. L. Motley, of Salisbury, writes: 'The recent series of meetings at the First Baptist Church, Hendersonville, in which it was my privilege to do the preaching, resulting in one of the most satisfactory revivals that I have known in a good while. From the beginning the pastor and I had the co-operation of a consecrated band of brethren and sisters, which, in itself, insured success. I found Brother Hughes, the much-loved leader of his people, to be one of the most choice spirits I ever met. He is a strong preacher; an untiring pastor and a most delightful Christian gentlemen every way. It was a great joy to know him personally, and to labor with him and his charming people. I was delightfully entertained in the home of Mr. and Mrs. W. A. Garland. The Hendersonville church is one of our best churches, and ought to take first rank. They could entertain the State Convention delightfully, and I hope they may invite it to meet with them next year.'

"Act For Our Children."

Editor Hustler:

I heartily endorse every word of the article which appeared, under the above head line, in your last issue.

It is time indeed that we "act for our children," and I believe the question of additional funds for our public school should be submitted to the people at once.

Next to the church, and very close to it, stands the school building as the greatest moral factor of any community.

If we want the right kind of people to come here, we must have school facilities second to none.

Our facilities now are not what they should be and I believe our enlightened and progressive people will endorse at the polls any movement tending to their betterment.

SOROSIS SHOES

Japan has a commercial commission now on a tour of the United States, making a study of the different great enterprises of this country. They recently visited the great Sorosis shoe manufactory at Lynn, Mass., where every single stage of shoe manufacture from the time the lasts were turned out till the

finished product was deposited in paper boxes ready to be shipped to all parts of the world was watched by the commission with the utmost interest. Each man was presented with a pair of baby moccasins. They were shown shoes that sold at from \$5 to \$50, shoes of gold and silver cloth and of white satin, and many were the expressions of wonderment that there should be a demand for shoes of such high standard. The Sorosis factory was the only shoe factory visited by these distinguished men. Sorosis shoes are sold in Hendersonville exclusively by Staton's Cash Shoe Store.

Two Points of View.

"Good morning, Jones!"
"Good morning, Brown! Any news today?"

"Why, yes. You know my brother who works at the bank? Well, he went to business the other day and found £1,000 on the counter. And what do you think he did? Stole the money and tripped off to Canada. And when the news reached my father it broke the old man's heart."

"That's funny! You know, my brother works at a bank, too, and when he went to business the other morning he found £1,000. And what do you think he did?"

"What-stole it?"
"No; took it straight to the manager's office. And when the news reached my father, do you know, it broke the old man's heart!"—London Telegram.
